MEMORANDUM FOR: Project Director

**SUBJECT: Evaluation of the Stassen Proposal of
9 May From an Intelligence Targets
Requirements Point of View**

1. Attached hereto are some charts and a paper prepared by OCI and HTAUTOMAT for use in a discussion of the Stassen disarmament proposals.

2. I think you can take some satisfaction in the fact that because of the pressure which AQUATONE applied to the community to figure out its requirements they, the requirements, were readily available without a lot of extra effort to produce the kind of advice required in this instance.

3. You may be aware that General Cabell has requested the National Indications Secretariat to produce Watch-type requirements which will be turned over to us for our use when they are fully coordinated. I applaud this move not only for the fact that this classification of requirements is highly desirable, ^{but also} because in my opinion it is really being produced by the people who ought to, namely, the substantive people responsible for watching.

JAMES Q. REBER
Intelligence Requirements Officer
